RESPONSE TO SPECIES ELECTION REQUIREMENT

Sir:

In response to the species election requirement mailed October 5, 2007, Applicant provisionally elects compound danshen drop pills (claim 5), with traverse. Compound danshen drop pills and compound danshen tablets both comprise RSM, *Radix Notoginseng* and Borneolum. Although compound danshen drop pills and compound danshen tablets do not have exactly identical compositions, both should be included in the same species.

Further, the Examiner is requested to reconsider the election requirement since the species are so sufficiently related that no undue burden would be placed upon the Examiner by maintaining all species in a single examination. MPEP § 803
